# HIGH COMPLEXITY CLINICAL LABORATORY

## Molecular Diagnostics

Results in 24-48 hours upon receipt

## About Us

North Star Laboratories was founded in 2020 by partners who bring together respective expertise in medicine, laboratory services, and international healthcare logistics.

At North Star Laboratories, we are dedicated to providing the best laboratory services to meet the needs of our clinical providers and their patients. We believe that the key to earning our providers' confidence is through offering the most advanced laboratory science. With each test we conduct, we strive to exceed expectations and provide a superior experience for all involved.

We are proud to offer a comprehensive menu of molecular diagnostic and preventative genomic testing.

*We shine bright as a medical laboratory with state-of-the-art technology and an unwavering commitment to customer satisfaction, setting us apart.*

➤ **We shine  
bright as a medical  
laboratory**

---

North Star Laboratory is a full-service high complexity lab that blends the latest methods with cutting edge technology to provide comprehensive test results. Our approach has always been simple: to provide testing based on the specific needs of clinicians and their patients.
